Times tables in year 4

Dear parent/carer,

As you are aware, Year 4 will be sitting a times tables assessment in June, which is a government set assessment for all Year 4 children across the country. This was brought in to ensure that children are ready for the more challenging curriculum in Upper Key Stage 2. Within school hours your children have been working and learning the times tables up and including 12x12.

The children have made good progress this year, and we are writing to you to ask for your continued support with this matter so that they are ready for Year 5.

The maths homework over the next half term will be times tables based. Please ensure that your child completes this and returns it to school on the designated day. A sheet will accompany this letter which is for the children to complete over the Easter break. Please all encourage your child to practice their times tables daily using the ideas on the reverse of this letter.

Times tables packs will be available from your child's class teacher after the half term.

Thank you for your continued support,

The Year 4 team.

Times tables practise Ideas

Times Tables Rockstar's

Your child will have their own personal password for this which their class teacher will be able to provide if needed.

One of the games is called soundcheck and this is designed to replicate the times tables assessment Year 4 will take. We encourage the children to play in this mode so that they are ready for the assessment.

Carol Vorderman Times tables check

This is a website that has been designed to again replicate the Times table assessment. This is a good way of seeing how the children may score on the Year 4 assessment. The website is below.

<https://www.themathsfactor.com/times-tables-check/#/>

Education City

Your child will have their own personal password for this which their class teacher will be able to provide if needed.

There are many games and songs on here for the children to explore.

YouTube Kids songs

There are a range of times tables songs on YouTube that the children are able to access and sing along to. Please ensure that you monitor when your child is using this to ensure that they are only watching things that are age appropriate.

There are some good YouTube channels below:
